

The ConsuLab EM-200-17 Audio System Trainer is mounted on a plastic training board with OEM components. It contains the following features:

- Audio control unit.
- Two speakers.
- Vehicle antenna.
- Electrical test points allowing student circuit diagnosis.
- A lockable system fault box allowing instructors to insert from one to four faults for student diagnostic learning.

Educational Advantages:

- OEM components and color matching wiring are used.
- Students must connect all components using included jumper wires to reinforce relationships between components and OEM wiring diagrams.
- Faults can be inserted into the circuit that create real-world symptoms and abnormal operation.

Dimensions: 22 x 22 x 8 in (55.9 x 55.9 x 20.3 cm)

Weight: 15 lb (6.82 kg)
